EXECUTIVE OFFICE OF THE PRESIDENT  
**OFFICE FOR EMERGENCY MANAGEMENT**

THE OFFICE OF DEFENSE TRANSPORTATION  
JOSEPH B. EASTMAN, Director

June 25, 1943

IN REPLY REFER TO:

Newark Eagles Baseball Club  
101 Montgomery Street  
Newark, New Jersey

Gentlemen:

It has been called to our attention that you are operating certain special bus equipment. In order that you may be informed concerning the regulations of this Office relative to the operation of special bus equipment, I am enclosing herewith a copy of General Order ODT-10A which generally prohibits the operation in special service of any bus having a seating capacity of ten passengers or more.

You will note that there are specified a few very essential types of services which are permissible, but even in these cases only where no regular transportation facilities are available.

Please advise as to the nature of any special bus services in which your equipment is engaged. Full information should be furnished so as to enable this Office to determine its status under Order 10A.

Very truly yours,

*P. N. Simmons*  
P. N. Simmons  
Regional Director

Enclosure
